

## Sikaflex – Special Glue For Joining Rubber

### Sikaflex The Product

**One tube covers approximately 2 square metres ( coverage is approx only due to amount used by individual installers. Cost \$23.36 per Tube of 705 grams.**

**20 tubes per box has a 15% discount applied to.**

**Dispenser – gun - (to fit 705 grams Sausage) is \$88.41 ex gst, you can trade back in the dispenser for a refund of \$40 after the unit is inspected and the gun is deemed by RR to be in a satisfactory clean condition.**

*Please advise us when ordering if you wish to return for a \$40.00 refund as the dispenser will be most likely second hand.*

**All surfaces must be clean, sound, dry and free of oil, grease and surface contamination. Thoroughly remove all loose particles and dust. Any loose flaking must be removed and light sanding is recommended.**

All prices ex gst & freight, and may change without notice

### Features

#### **Sealing**

minimises the flow of gases, liquids, heat and cold between cavities and interstices. This raises interior functionality and comfort.

#### **Bonding**

connects different materials permanently and powerfully.

#### **Damping**

reduces oscillations of all wavelengths in fixed and moveable objects. This dampens the sounds and noises emitted by load-bearing structures and cavities.

#### **Reinforcing**

boosts the strength of load-bearing structures exposed to both static and dynamic forces.

#### **Protecting**

increases the durability of load-bearing structures and preserves the substance of new and renovated objects.

### Step By Step Install

Apply Glue to bevel underside of tile.

Press tiles together

Allow Glue To Rise

Cut Off Excess Glue

Job Done

Depending of weather temperature and conditions allow 24 hours to set. The tile does not necessarily need gluing to surface as in many cases the weight of the tiles will be sufficient. In outside applications we recommend that you do not fix to the surface due to temperature effects on tiles ie expansion and retraction.
