

## Cable/Hose Protection

The latest's Innovation Cable Protection

**Cable Protector - 1m long by 350mm wide by 60mm high**

**with Cable Channel - 80mm by 30mm standard**

Cable protectors are designed to be used where cables need to be crossed at pedestrian walkways or vehicle crossovers. The cable channel can be customised to your requirements and the sections interlocked for additional stability. Economical and easy to work with sections can be glued or bolted for light vehicle traffic or permanent applications. Light and easy to handle with high visibility, reflective panels – perfect for temporary installations at sports and concert venues, construction sites etc . .
