With Climate Change now being accepted as part of life – we need to re-think how we manage the grass areas around our homes. One thing is for sure; lawns require water to survive and it will be an ongoing concern and problem to meet its demand.

These days brown and patchy lawns are with us the solution is

## **Repeat Rubbers "Prestige Lawn"**

**Current Situation**

**Prestige Lawn**

**Prestige Lawn in use**

## **"Prestige Lawn"**

Looks and feels like the lawns of old!

With up to 10 years use in domestic situations

No more pushing or paying for lawns to be mowed

No water required, The lawn will always look in

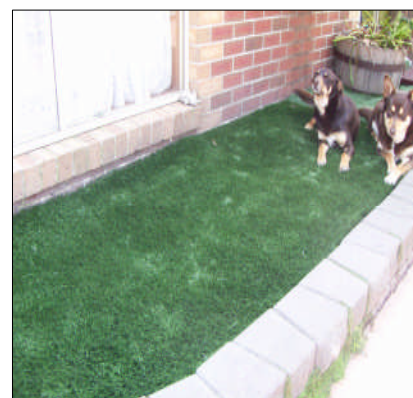

prestige condition, No brown, dirty or dead area's

No weeds , Safe for children to play on,

It is almost maintenance free, Animal friendly

Very cost effective, Add a putting green

or another activity for the children.

Typically Repeat Rubbers **Prestige Lawn** has paid for itself within 3 years of not having pay to maintain your old grass leaving you with up to 7 years + for free & hassle free !
